\* By recycling just one tonne of paper, we can save 13 trees.

\* Recycling one tonne of paper will also save around 4 cubic metres of landfill space.

\* Recycling a single plastic bottle will save enough energy to power a laptop for 25 minutes.

\* Recycling a single glass bottle will save enough energy to power a TV for 25 minutes.

\* Collected packaging from recycling containers is transported to sorting installation by specialized vehicles.

\* Materials are put on conveyor belts, where they are sorted by types of material.

\* Sorted and baled packaging is transported to the recycling facilities.
